**FES Bankruptcy**

**Date:** October 16, 2019

**From:** Frank Meznarich, President  
Chris Ericksen, Vice-President

**To:** Local 270 Membership

We have reached an agreement with the company concerning both our Collective Bargaining Agreement and Pension Plans for our members working at the Perry Nuclear Power Plant.

The members at the Perry Plant will make a seamless transition to the new company, as both the contract and the pension will remain unchanged.

Local 270 will now come out in support of HB 6 for two reasons, #1 the jobs it will save, and #2 the income these plants provide to the communities where they are located. We will not participate in any negative, misleading or corrosive campaign. Stick to the two reasons cited above. Contact your family, friends, and associates etc and ask that they back HB 6.

Thank you to the entire membership of Local 270 for your patience while we went through this bankruptcy process.
